2 Purpose and Scope

This plan has been developed to document the processes required to prepare and respond to pollution incidents for Griffith City Council owned Livestock Marketing Centre (GLMC). The plan covers descriptions of potential hazards, actions to be taken to prevent additional environmental harm and details of communication requirements in the event of a Pollution incident.

The plan has been prepared in accordance with the requirements of the Protection of the Environment Operation Act 1997 section 153A (POEO Act) and the Protection of the Environment Operation (General) Amendment (Pollution Incident Response Management Plans) Regulation 2012, which commenced on 29th February 2012, hereafter referred to as amendment. One of the requirements of the amendment is that Pollution Incident Response Management Plans (PIRMPs) be prepared by the holders of Environment Protection Licences in relations to the activities carried out under such licences. In particular it specifies the additional information that is required to be included in the plan, the manner in which it is to be made available to stakeholders and the occasions on which it is to be tested.

This PIRMP covers the Griffith City Council's Livestock Management Centre located on Hillston Road, Griffith, Environmental Protection Licence number 11915.

3 Definition of Pollution Incident

A pollution incident means an incident or set of circumstances during or as a consequence of which there is or is likely to be a leak, spill or other escape or deposit of a substance, as a result of which pollution has occurred, is occurring or is likely to occur. It includes an incident or set of circumstances in which a substance has been placed or disposed of on premises, but it does not include an incident or set of circumstances involving only the emission of any noise.

A pollution incident is required to be notified if there is a risk of "material harm to the environment", which is defined in section 147 of the POEO act as:

(a) Harm to the environment is material if:

- (i) It involves actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial, or
- (ii) It results in actual or potential loss or property damage of an amount, or amounts in aggregate, exceeding \$10,000 (or such other amount as is prescribed by the regulations),

and

(b) Loss includes the reasonable costs and expenses that would be incurred in taking all reasonable and practicable measures to prevent, mitigate or make good harm to the environment.

2.1 POTENTIAL HAZARDS TO THE ENVIRONMENT

The potential hazards to the environment from the Livestock Management Centre, controlled by GCC under EPL 11915 are listed below. This list of potential hazards is not exhaustive as it is possible that unidentified contaminants may be brought on site without Council's knowledge.

- 1) Hydro carbon spills such as fuels or oils
- 2) On site hazards as identified in Table 1
- 3) Livestock effluent
- 4) Agricultural chemicals

2.2 POLLUTION INCIDENT CLASSIFICATION, RISK ASSESSMENT AND CONTRIBUTING FACTORS

Table 1 - Pollution Incident Description, Risk Assessment Using EPA Risk Assessment Analysis Matrix and Contributing Factors

Description of pollution incident	Likelihood	Impact	Contributing factor
Hydro carbon spills such as fuels or oils from vehicles	unlikely	low	All hard stand areas are drained to effluent ponds which can be isolated to contain and control the spill.
On site hazards as identified in Appendix 5	unlikely	low	Miscellaneous chemicals stored in the chemical shed.
Livestock effluent	unlikely	low	All hard stand areas are drained to effluent ponds with overflow catchment area, and excess liquid discharged to the sewerage system.
Agricultural chemicals	unlikely	Low	All hardstand areas are drained to effluent ponds which can be isolated to contain and control the spill.

2.3 PRE-EMPTIVE ACTIONS

2.3.1 Physical and preventative measures

First priority of the pre-emptive action is to eliminate substances that can become potential pollutants. If this is not possible, physical barriers are installed to prevent pollutants from leaving the site. The GLMC utilises a closed-circuit multi-pond system to manage all livestock effluent.

2.4 INVENTORY OF POTENTIAL POLLUTANT PRODUCTS

An Inventory of Pollutants held at the site is detailed in Appendix 5.

2.5 SAFETY EQUIPMENT

Safety equipment, spill containment kits and management plans are available and maintained to prevent possible harm to human health and the environment. Regular Inspection and testing of equipment are carried out as per manufacturer's recommendations. Safety equipment located within the site are given below.

- Fire Extinguishers:
 - Office x 4
 - Canteen x 2 + 1 Fire Blanket
 - Workshop x 2
 - Scalehouse x 1
- Exit Lights on external doors to Office, Team Leaders Office and Canteen.
- Emergency Evacuation Plan (See Appendix 1)
- First Aid Kits are located in main office
- MSDS register and folders are kept in main office
- Spill Containment Kit is kept in the workshop
- Personal Protective Equipment (PPE)
 - Carbon filter mask (fume & particle) stored in office, on tractor, in chemical storage cupboard in shed (spares in Team Leader's office).

2.6 CONTACT DETAILS

2.6.1 Griffith City Council key officers and their responsibilities

Table 2 identifies the Council Officers and their roles and responsibilities in the event of a pollution incident.

Table 2 - Griffith City Council Key officers and their responsibilities

Name /Responsibility	Position	Contact details
	Director Utilities	1300 176 077
	Team Leader, GLMC	1300 176 077
	Saleyards Staff	1300 176 077
	Administration Officer - Utilities	1300 176 077

****Please note the Saleyards Landline is no longer available. Please use staff mobile numbers as listed above.**

2.6.2 Notification of external parties

If an emergency or incident is determined to have caused or threatened material harm to the environment, the Manager, Livestock Management Centre will immediately contact each authority listed below in Appendix 3.

First call 000 if the incident presents an immediate threat to human health or property. Fire Rescue NSW, NSW Police and the NSW Ambulance Service are the first responders, as they are responsible for controlling and containing incidents.

Table 3 - Emergency services contact details

Emergency: Police/Fire/Ambulance - 000	
NSW Environmental Protection Authority	131 555
SafeWork NSW	131 050
The Ministry of Health (MOH) via local PHU (Public Health Unit)	1300 066 055
Griffith Base Hospital	02 6969 5555
Griffith Police Station	02 6969 4299
Fire & Rescue NSW Griffith (Fire Brigade)	02 6929 5711
Ambulance	000

Note: Phone numbers are current as at the date of this document

2.7 COMMUNICATING WITH NEIGHBOURS AND LOCAL COMMUNITY

This plan will include allocating appropriate responsible person to notify and co-ordinate with affected community members. In the event of a pollution incident Griffith City Council will attempt to provide early warning to directly affected neighbours by following mechanisms as appropriate.

- Telephone calls or door knocking (where appropriate)
- Local media source (radio/newspapers) as appropriate
- Griffith City Council webpage updates and media releases;

The Livestock Management Centre has a number of adjoining properties as listed in Table 4.

Table 4 - List of immediate neighbours – This table has been left blank

2.8 EXTERNAL CONTACTS – OTHER – This table has been left blank

2.9 MINIMISING HARM TO PERSONS ON THE PREMISES

At all times minimising harm to persons shall be the priority. To address the risk of pollution incidents the Livestock Management Centre has following management practices in place.

- 1) Evacuation Plan (see Appendix 1: Map of Emergency Assembly Area).

2.10 TRAINING, TESTING AND REVIEW

Training is provided to staff for the use of the plan which will ensure that all staff are aware of the content, processes and requirements of the plan to be able to competently implement as required.

Plan will be tested randomly by dummy runs to check the effectiveness of the plan. Testing records will be maintained in the PIRMP Training and Testing Register. GCC will review the PIRMP after 12 months and update as required. After an incident occurs the plan will be reviewed and updated as required.

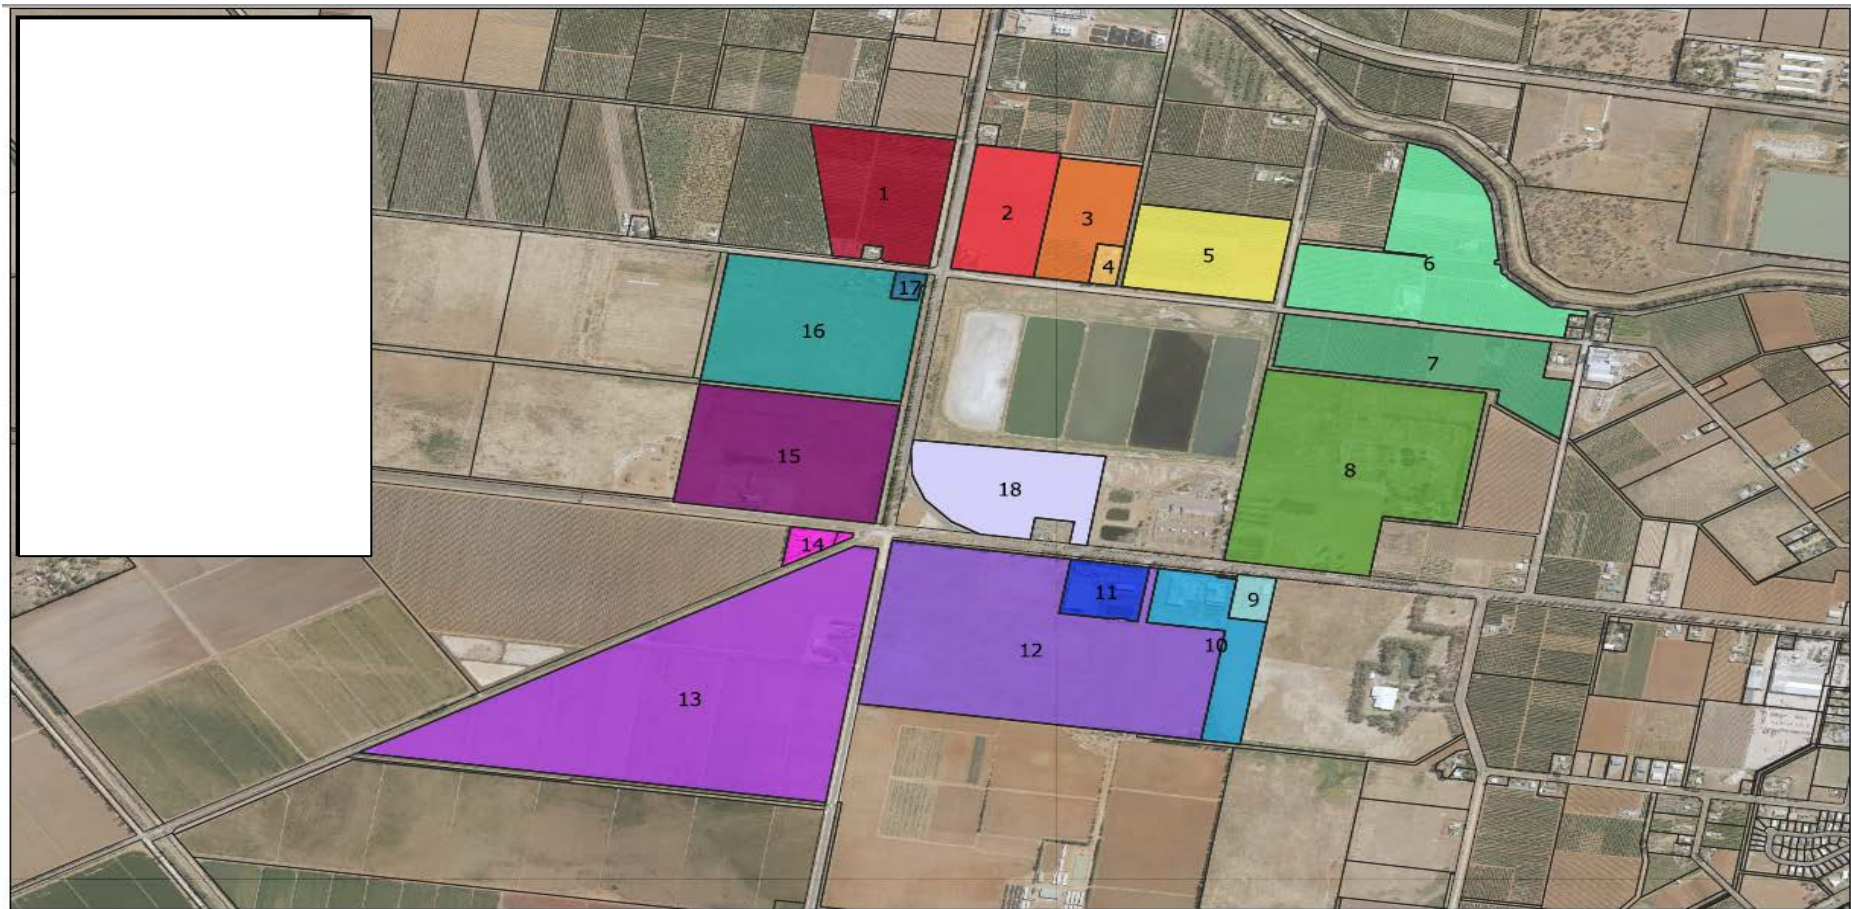

A copy of this Plan will be uploaded to the council web site and hard copy will be kept on site.

Approved by: Quality Systems Supervisor	Department: Water & Sewerage	Document ID: (WS-FO-006)	Version: 1
Issued: December 2018	Revised: --	Status: Approved	Page 1 of 3

The completed form should be emailed to: riverina.farwest@epa.nsw.gov.au and info@epa.nsw.gov.au with the subject line "Self Report" and quote the EPA Reference Number on this form and/or the relevant EPA Licence Number - within 7 days of an incident.

Report to Environmental Incident Hotline INVESTIGATION

The appropriate Section Supervisor/Manager is responsible for completion of **Part B** of the incident report.

IMMEDIATE ACTION BY SUPERVISOR/MANAGER

Will the incident:

1. Require assistance from other agencies to contain, isolate or cleanup?
If "Yes" call 000 immediately.

YES ☐ NO ☐ NOT SURE ☐

2. Pose any actual or potential harm to human health that is not trivial?

YES ☐ NO ☐ NOT SURE ☐

• Is it located within 100m of a school, childcare centre, aged care home?

• Could it impact on users of public areas such as ovals, reserves, waterways?

• Could the impact spread and potentially harm occupants of nearby properties?

3. Pose any actual or potential harm to ecosystems that is not trivial?

YES ☐ NO ☐ NOT SURE ☐

• Could the incident flow / impact on a water body or drainage system?

• Could the incident flow / impact on environmentally sensitive land?

4. Result in actual or potential loss or property damage of an amount over \$10,000?

YES ☐ NO ☐ NOT SURE ☐

If you answered 'yes' to any of the above then the incident should be considered as a notifiable "pollution event". There is a **duty to notify** the EPA, Ministry of Health, SafeWork and Fire and Rescue NSW immediately after becoming aware of a pollution incident where material harm is caused or threatened. Failure to do so is an offence (*Protection of the Environment Operations Act 1997*)

Agency Notification

If the incident does not require an initial combat agency, or once the 000 call has been made, notify the relevant authorities in the following order.

Other Notifications to Consider

- ☐ Internal contacts eg Environmental Health Officer
- ☐ Media
- ☐ NSW Food Authority
- ☐ Shellfish programs
- ☐ River users eg boat hiring companies
- ☐ Marine education centres
- ☐ Other

Preliminary Investigations

Notes from discussions with relevant operational staff

Any further observations or comments by Supervisor / Manager

Categorisation by Authorised Officer

- ☐ **Minor**
No notification required
 - Incident affects small area only (eg single property) AND
 - Incident is easy to clean up without additional assistance, AND
 - There is no risk of material harm to humans or the environment.
- ☐ **Moderate**
Notify EPA and Local PHU only
 - Incident affects more than one property OR
 - There is a risk of pollution or material harm to the environment BUT
 - Cleanup can be completed without assistance AND
 - There is no danger to humans.
- ☐ **Major**
Notification required - Notify EPA, Local PHU, Workcover and Fire & Rescue
 - Potential or actual harm to humans and the environment AND/OR
 - Assistance is required with cleanup from other agencies.
- ☐ **Council Responsible**
Incident occurred as a direct result of Council activity or function.
- ☐ **Response by Council**
Incident occurred on Council land, or land under Council care and control BUT Council did not cause the incident.
- ☐ **Technical Licence Breach**
Relating to technical compliance such as exceedance of permissible discharge volume or environmental monitoring limits.
